Alliant Health Solutions: Quality Innovation Network-Quality Improvement Organization

Centers for Medicare & Medicaid Services (CMS) awarded Alliant Health Solutions (AHS) the opportunity to serve as a Quality Innovation Network – Quality Improvement Organization (QIN-QIO) under the 12th Statement of Work (SOW) for the following seven states: Alabama, Florida, Georgia, Kentucky, Louisiana, North Carolina, and Tennessee.

In this five-year SOW, Alliant Quality, the quality improvement group of AHS, will provide assistance to nursing homes and communities in small and rural practices, those serving the most vulnerable populations, and those in need of customized quality improvement.

CMS Aims

Behavioral Health Outcomes and Opioid Misuse 	Patient Safety 	Chronic Disease Self-Management 	Quality of Care Transitions 	Nursing Home Quality 
<ul style="list-style-type: none"> Promote opioid best practices Decrease high dose opioid prescribing and opioid adverse events in all settings Increase access to behavioral health services 	<ul style="list-style-type: none"> Reduce risky medication combinations Reduce adverse drug events Reduce C. difficile in all settings 	<ul style="list-style-type: none"> Increase performance on ABCS clinical quality measures (i.e. aspirin use, blood pressure control, cholesterol management, cardiac rehab) Smoking cessation Identify patients at high-risk for developing kidney disease and improve outcomes Identify patients at high risk for diabetes –related complications and improve outcomes 	<ul style="list-style-type: none"> Convene community coalitions Identify and promote optimal care for superutilizers Reduce community-based adverse drug events 	<ul style="list-style-type: none"> Improve the mean total quality score Develop national baselines for healthcare related infections in nursing homes Reduce emergency department visits and readmissions of short stay residents

Our Approach

QIN-QIOs will partner with nursing homes and community coalitions. AHS will contribute to CMS' national goals set for each aim and care setting by providing very specific and measurable improvement targets. Interventions and programs will deliver measurable progress toward the national goals.
