

The PEG Scale: Assessing Pain Intensity and Interference

Pain, Enjoyment, General Activity

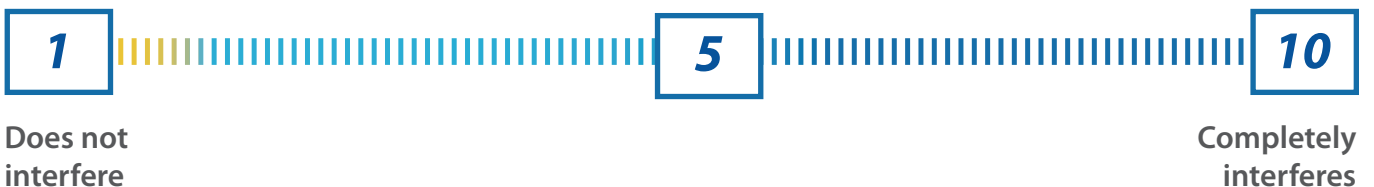

What number best describes your average pain in the past week?

What number best describes how, during the past week, pain has interfered with your enjoyment of life?

What number best describes how, during the past week, pain has interfered with your general activity?

Computing the PEG Score:

Add the responses to the three questions, then divide by three to get a mean score (out of 10) on overall impact of points.

Using the PEG Score:

The score is best used to track an individual's changes over time.
