

# Joining the Alliant Health Solutions NHSN Group

The Alliant Health Solutions Nursing Home Collaborative offers support and technical assistance to achieve excellence in care. We assist homes in small and rural communities, those serving the most vulnerable populations, and those needing customized quality improvement. We also provide support during public health emergencies, such as pandemics, and other crises as they arise.

This document explains how to confer rights to Alliant Health Solutions to view National Health Safety Network (NHSN) data, which allows seamless support and technical assistance.
