How to Take the Training

Watch simple, interactive videos for self-paced and on-demand learning.

Complete anywhere: At home, on phones, with groups during orientations and trainings, etc.

Training accommodates many different learning styles. From frontline to administrative staff -- everyone will learn something new.

Module Topics

Frontline Staff

Modules 1–5

The training modules for **frontline staff** address basic infection control and prevention - some of the most common concerns found by surveyors and Federal Task Force Strike Teams. The modules are focused on the most urgent needs of frontline nursing home staff.

Modules 1–10

Management

The training modules for **management** are comprehensive, focusing on infection control and cleanliness, as well as larger institution-wide issues like implementation of telehealth, emergency preparedness, and vaccine delivery.
