

# National COVID-19 Resiliency Network Partnership Information

Alliant Health Solutions is a strategic partner with the National COVID-19 Resiliency Network (NCRN). NCRN consist of organizations and individuals from all over the country working together to inform community-driven responses, recovery, and resiliency strategies for addressing this pandemic and resulting health issues.

Alliant's goal is to provide timely and relevant COVID-19 and health related information and resources to individuals, families, community organizations and clinical providers with a focus on rural, racial and ethnic minorities and disproportionately affected populations.

## ALLIANT'S AREAS OF FOCUS:

- COVID information and resources and toolkits
- Mental wellness amid COVID across the life span
- Mental wellness in correctional settings
- COVID's impact on developmental stages of children
- Immunizations across the age span
- Routine health care and preventative screenings
- Chronic condition management

## POTENTIAL PARTNERS

- Area Agencies on Aging
- Behavioral Health Centers
- College and University systems
- Community Coalitions
- Community Service Programs
- Correctional Facilities
- Faith Based Organizations
- Home Health Agencies
- Immunization Coalitions
- Medical Associations and Societies
- Programs studying post-COVID Syndrome
- Quality Improvement Organizations
