Thursday, February 24, 2022

1-2 p.m. ET | 12-1 p.m. CT | 10-11 a.m. PT

Event Description:

Join the Telligen, IPRO, Alliant Quality, and IHC/Compass HQICs for the second installment of a dynamic three-part webinar series featuring proactive strategies and tools for preventing all-cause harm related to adverse drug events. This webinar will focus on anticoagulation safety to prevent adverse drug events.

Learning Objectives:

1. COVID-19 and anticoagulation issues/promising practice recommendations for preventing anticoagulant ADEs in COVID patients
2. General anticoagulation safety/high risk medication safety
3. Using EHR alerts to prevent ADEs related to anticoagulation
4. Patient/family/care partner education on anticoagulants

Additional presentation details to follow.

About Hospital Quality Improvement Contractors (HQIC):

The HQIC is a four-year program dedicated to improving behavioral health outcomes with a focus on decreased opioid misuse, patient safety with emphasis on reduction of harm, and care transitions with a focus on high utilizers. HQIC supports rural, critical access hospitals and hospitals that are low performing and serving vulnerable populations.
