**Every 2nd and 4th Wednesday of the month
Beginning Wednesday, January 26, 2022
2 - 2:30 p.m. EST
No Registration Required**

The stress of this pandemic is weighing heavily on health care workers at all levels and in all disciplines. COVID-19 requires attention from the housekeeper to the CEO because we are all at risk from a personal and professional standpoint.

Alliant is aware that Infection Preventionist (IP's) are under additional pressure to ensure the organizations they serve are aware and responding to ever changing requirements. In our rural and critical access hospitals, many of the IP's are working in roles which limits the amount of time you have to stay up-to-date on all of the information you need to implement effective control measures as well as constantly sorting through new information as science evolves.

The COVID Office Hours chat sessions will occur on the 2nd and 4th Wednesday of each month and will provide up-to-date resources and sharing of best practices and barriers for the Infection Preventionists.

For more information, visit our website quality.allianthealth.org.

About CMS Hospital Quality Improvement Contractors (HQIC):

The HQIC is a four-year program dedicated to improving behavioral health outcomes with a focus on decreased opioid misuse, patient safety with emphasis on reduction of harm, and care transitions with a focus on high utilizers. HQIC supports rural, critical access hospitals and hospitals that are low performing and serving vulnerable populations
