Marilee Johnson, MBA, MT (ASCP)
Infection Prevention Technical Advisor

May 19, 2022
Marilee Johnson, MBA, MT (ASCP)

INFECTION PREVENTION TECHNICAL ADVISOR

Marilee is a health professional with experience in public health epidemiology, infection prevention and clinical microbiology. Recently, she worked with the CDC’s National Healthcare Safety Network to reduce *C. difficile* infections in nursing home residents. She supports nursing homes with tracking and reporting infections in NHSN and focuses on strategies to reduce health-acquired infections across all patient care settings.

Marilee loves gardening, hiking, reading, yoga and spending time with her family and friends.

Contact: marilee.johnson@allianthealth.org
Amy Ward, MS, BSN, RN, CIC

INFECTION PREVENTION SPECIALIST

Amy is a registered nurse with a diverse background in acute care nursing, microbiology, epidemiology and infection control. She is passionate about leading and mentoring new and future infection preventionists in their career paths and assisting them in reducing health care-associated infections across the continuum of care.

Amy enjoys spending time with family. She loves all the time she can get outdoors camping, bicycling and running.

Contact: Amy.Ward@AlliantHealth.org
Donald Chitanda, MPH, CIC

INFECTION PREVENTION TECHNICAL ADVISOR

Donald is a health professional with experience in public health epidemiology and infection prevention. Over the past several years, he worked as an infection preventionist at the hospital- and system-level, where he was part of a task force to ensure the safety of caregivers and patients during the ongoing COVID-19 pandemic. In addition, he was part of and led several projects to reduce hospital-acquired infections utilizing Lean Six Sigma methodologies. He is also trained in ensuring ongoing facility survey readiness for regulatory agencies such as the CMS and The Joint Commission.

Donald enjoys spending time with family and doing outdoor activities.

Instructional videos to answer technical questions related to NHSN

Help! I am new & no one has NHSN access
How to Upgrade to Level-3 Access in NHSN
How do I find out who has access to my facility?
How do I add users and rights to our NHSN account?
I got a new job. Can I use my grid card to access my new facility?
How do I change my email address for NHSN & SAMS?
I am leaving, how do I reassign another NHSN facility administrator?
How do I generate a report in NHSN to see my vaccine data and dates submitted?
I want to receive technical assistance. How do I join Alliant Quality’s NHSN Data Group?
Generate an analysis report

Bookmark our FAQ YouTube channel for easy reference to frequent NHSN issues: https://www.youtube.com/playlist?list=PLXWmxni-xNHspWHhLIlrqcLGlzXZPljlF
Objectives

Agenda:

• Quick review of NHSN FAQs
• Monitor your vaccination data weekly for accuracy & QA alerts
• Updates to the Weekly Event-Level COVID-19 Vaccination Forms
Flashback Shop Talk January 2021

When adding users, be sure to add Administrator, all rights, staff, add, edit, delete & staff-view.

How do I add users and rights to our NHSN account?

If No One Has Access or No One Else Has Admin Rights to the Account...

Then, someone at the facility must complete this form. Keep in mind that you are the NEW admin, and the current admin is whomever was listed (confusing right?).

Here is the online form: https://www.cdc.gov/nhsn/facadmin/index.html

Shoptalk Short: Help! I am new & no one has NHSN access
Reminder: If You Submit Zero in Categories/Columns for #1, You Will Get an Alert.....but it is OK....you didn’t do anything wrong

This alert is a soft alert for you to review your data. Double check to ensure it is correct and click OK. It will save successfully.

128/130 = 98% vaccinated
105/128 = 82% boosted

Vaccination Summary Data

Click a cell to begin entering data for the week which counts are reported.

Reporting of medical events or health problems that occur after vaccination (possible side effects) is encouraged, even if you are not sure they are the result of vaccination, at https://vaers.hhs.gov/reportevent.htm.

Weekly Vaccination Calendar

- COVID-19 HCW
- COVID-19 Residents

04/04/2022 (Monday) - 04/10/2022 (Sunday)

04/11/2022 (Monday) - 04/17/2022 (Sunday)
Edit Your Data
Best Practice for Validating your NHSN Vaccination and Booster Rates
Changes in Vaccine Reporting

SAMS Level-1 users will continue to use the Summary form.

However, tracking sheets are retiring at the end of May.

Facilities with Level-3 users:

Start submitting your vaccination data with the new Event-Level forms

New! Data Tracking Worksheet for COVID-19 Vaccination among Residents excel icon[XLS – 8 MB] – April 2022

New! Data Tracking Worksheet for COVID-19 Vaccination among Healthcare Personnel excel icon[XLS – 8 MB] – April 2022

Start working on getting Level-3 access

How to Upgrade to Level-3 Access in NHSN

•New! Event Level COVID-19 Vaccination Form Quick Reference Guide pdf icon[PDF – 1 MB] – April 2022
Time to Move to the New Way of Reporting: Event-Level COVID-19 Vaccination Form

- Must be a SAMS Level-3 user
- LTCF component
- Navigate to the COVID-19 tab
- Select Event-Level COVID-19 Vaccination Form - HCW or Event-Level COVID-19 Vaccination Form - Residents
How To Enter Vaccination Information for an Individual

- Click + Add Row button
- New yellow section at the top of the form will appear to enter the individual’s data
- Enter required and applicable fields
- Click Save Row

Note: CSV upload also available
How To Submit Data to the Aggregate Weekly Reporting Form

- Rows will appear in green after they have been added or modified, and will remain green until they have been submitted to the weekly reporting form for all relevant weeks.
- When all data are entered and ready for submission, click the View Reporting Summary & Submit button.
How To Submit Data to the Aggregate Weekly Reporting Form

• This is the Reporting Summary screen.
• The totals are auto-calculated based on the person-level data.
• Use the week of data collection drop-down menu to view the data by reporting week and see which weeks need data.
The Data in the Reporting Summary and the Official Weekly Vaccination Form Are the Same After Submission

Data for example only
How far back can I report event-level data?

- The event-level COVID-19 Vaccination Form for LTC residents and staff can be used to report data beginning with the week of March 28, 2022 – April 3, 2022 and forward.

Note: if you use the event-level form to enter data and click save and submit, it will overwrite data that were previously entered via the summary form and vice versa.
Updates to Vaccination Forms

Weekly COVID-19 Vaccination Form Simplification

- After removing vaccine manufacturer (primary vaccine series)

**New Version**

<table>
<thead>
<tr>
<th>Primary Vaccine Series</th>
<th>2. <strong>Cumulative</strong> number of HCP in Question #1 who have received <strong>primary</strong> series COVID-19 vaccine(s) at this facility or elsewhere since December 2020:</th>
</tr>
</thead>
<tbody>
<tr>
<td>New</td>
<td>2.1. <em>Only 1 dose</em> of a two-dose Primary COVID-19 vaccine series</td>
</tr>
<tr>
<td></td>
<td>2.2. *Any completed Primary COVID-19 vaccine series</td>
</tr>
</tbody>
</table>
Updates to Vaccination Forms

Weekly COVID-19 Vaccination Form Simplification

- After removing vaccine manufacturer (primary vaccine series and additional doses/boosters)

New Version

Booster 4. *Cumulative* number of HCP with complete primary series vaccine in Question #2 who have received any booster(s) or additional dose(s) of COVID-19 vaccine since August 2021

- Removing vaccine supply questions

*5. For the current reporting week, please describe the availability of COVID-19 vaccine(s) for your facility’s residents:

5.1. Is your facility enrolled as a COVID-19 vaccination provider? [Select Yes or No]

5.2. Did your facility have a sufficient supply of COVID-19 vaccine(s) to offer all residents the opportunity to receive COVID-19 vaccine(s) from your facility in the current reporting week? [Select Yes or No]

5.3. Did your facility have other arrangements sufficient to offer all residents the opportunity to receive COVID-19 vaccine(s) in the current reporting week (examples of other arrangements include referring to the health department or pharmacies for vaccination)? [Select Yes or No]

5.4. Please describe any other COVID-19 vaccination supply-related issue(s) at your facility. [Optional]

<tr>
<td>4.2</td>
<td>Cumulative number of residents in Question #4 who received two or more booster doses of COVID-19 vaccine, and the most recent dose was received since March 29, 2022.</td>
</tr>
<tr>
<td>Question 5 asks about individuals who are up to date. Please review the current definition of up to date: <a href="https://www.cdc.gov/coronavirus/2019-ncov/vaccines/stay-up-to-date.html?msclkid=5b1d68ca3ba11ec81c5578497c4e1f">https://www.cdc.gov/coronavirus/2019-ncov/vaccines/stay-up-to-date.html?msclkid=5b1d68ca3ba11ec81c5578497c4e1f</a></td>
<td></td>
</tr>
<tr>
<td>5.</td>
<td>Cumulative number of residents in question #2 who are up to date with COVID-19 vaccines.</td>
</tr>
</tbody>
</table>
Key Terms:

- **Additional dose**
  - An additional dose is another dose of vaccine administered to people who were less likely to mount a protective immune response after initial vaccination. People who are moderately or severely immunocompromised should receive an additional dose.

- **Booster dose**
  - A booster dose is another dose of vaccine administered after receiving a primary vaccine series to enhance or restore protection which might have subsided over time.
Number of Booster Doses – Resident Form Only

**New** Adding reporting fields to question 4

- **Question 4.1:** Adding question on number of residents who have received only 1 booster dose
- **Question 4.2:** Adding question on number of residents who have received 2 or more boosters

<table>
<thead>
<tr>
<th>Boosters</th>
<th>4. <em>Cumulative</em> number of residents with complete primary series vaccine in Question #2 who have received <em>any booster(s)</em> or <em>additional dose(s)</em> of COVID-19 vaccine since August 2021</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>4.1 <em>Cumulative</em> number of residents in Question #4 who have received <em>only one booster dose</em> of COVID-19 vaccine since August 2021</td>
</tr>
<tr>
<td></td>
<td>4.2 <em>Cumulative</em> number of residents in Question #4 who received <em>two or more booster doses</em> of COVID-19 vaccine, and the most recent dose was received since March 29, 2022</td>
</tr>
</tbody>
</table>
Differentiating between additional and booster doses

- If an individual was administered one or two doses of COVID-19 vaccine after they completed their primary series, with no further details provided, then for the purpose of NHSN surveillance assume these doses are boosters (i.e., not additional doses) unless you have specific documentation indicating that they are additional doses administered due to the individual having a moderately to severely immunocompromising condition.
Example of How to Report 4.1 and 4.2, Among Residents with an Additional Dose

| 1. * Number of residents staying in this facility for at least 1 day during the week of data collection | 40 |
| 2. * Cumulative number of residents in Question #1 who have received primary series COVID-19 vaccine(s) at this facility or elsewhere since December 2020: | |
| 2.1 * Only 1 dose of a two-dose Primary COVID-19 vaccine series | 2 |
| 2.2 * Any completed Primary COVID-19 vaccine series | 30 |
| 3. * Cumulative number of residents in Question #1 with other conditions: | |
| 3.1 * Medical contraindication to COVID-19 vaccine | 0 |
| 3.2 * Offered but declined COVID-19 vaccine | 3 |
| 3.3 * Unknown COVID-19 vaccination status | 0 |
| 4. * Cumulative number of residents with complete primary series vaccine in Question #2 who have received any booster(s) or additional dose(s) of COVID-19 vaccine since August 2021 | |
| 4.1 * Cumulative number of residents in Question #4 who have received only one booster dose of COVID-19 vaccine since August 2021 | 25 |
| 4.2 * Cumulative number of residents in Question #4 who received two or more booster doses of COVID-19 vaccine, and the most recent dose was received since March 29, 2022 | 5 |
| Question 5 asks about individuals who are up to date. Please review the current definition of up to date. | |
| 5. * Cumulative number of residents in question #2 who are up to date with COVID-19 vaccines | |

**Weekly COVID-19 Vaccination Form**

- **New** Question 5: Cumulative number of individuals in question #2 who are up to date with COVID-19 vaccines.
  - Facilities will report the cumulative number of individuals who are up to date with COVID-19 vaccines.

<table>
<thead>
<tr>
<th>Up to Date</th>
<th>Question 5 asks about individuals who are up to date. Please review the current definition of up to date:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>5. <em>Cumulative number</em> of residents in question #2 who are <em>up to date</em> with COVID-19 vaccines</td>
</tr>
</tbody>
</table>
**Definition: Up to Date with COVID-19 Vaccines**

Individuals are considered up to date in two cases:

1. An individual received all recommended doses in their **primary vaccine series** and received **one or more booster dose(s)**. An individual does not need to receive a second booster dose to be considered up to date at this time.

2. An individual received all recommended doses in the **primary vaccine series** but is **not yet eligible for a booster dose**. Individuals who are **not yet eligible** to receive a booster dose include:
   a. Those who received their **second dose** of a 2-dose primary series of an mRNA COVID-19 vaccine (Pfizer-BioNTech or Moderna) **less than 5 months ago**.
   b. Those who received a single dose of **Janssen less than two months ago**.

*Individuals with a moderately to severely immunocompromising condition are considered up to date in the following cases:
1) An individual received an additional dose less than three months ago if primary series was the Moderna or Pfizer-BioNTech COVID-19 vaccine;
2) An individual received an additional dose less than two months ago if primary series was the Janssen COVID-19 vaccine; or
3) An individual received one or more booster dose(s) after receiving an additional dose.*

*Reference this definition on the CDC website regularly.*
Example of Up-to-Date Vaccination

- Bill received 2 doses of the Moderna COVID-19 vaccine for his primary vaccine series. He later received two booster doses of the Moderna COVID-19 vaccine; last booster dose was 7 months ago. Is Bill considered up to date?

  - Yes, Bill is up to date with COVID-19 vaccines because he received a booster.
Example of Up-to-Date Vaccination (cont.)

- Ann received 2 doses of the Moderna COVID-19 vaccine; last dose was 7 months ago. Is Ann considered up to date?

No, Ann is not up to date with COVID-19 vaccines because she has not received a booster dose even though she is eligible for it.
Weekly COVID-19 Vaccination Form

- **New** note added to the top of the form
  - Data can be reported a few different ways:
    - Entering data directly into the COVID-19 Vaccination Modules
    - Uploading .CSV files
    - Using the Event-Level COVID-19 Vaccination Forms and selecting the ‘View reporting summary and submit’ button.

**Cumulative Vaccination Coverage**

Note: Facilities submit Weekly COVID-19 Vaccination Cumulative Summary data by completing the questions on this form. As of March 28th, 2022 facilities also have the option to use the event-level COVID-19 vaccination forms and select the “view reporting summary and submit” to submit these data. Using the event-level forms is recommended to ensure that individuals who are up to date with COVID-19 vaccination are categorized appropriately according to their vaccination dates. Learn more here: [https://www.cdc.gov/nhsn/pdfs/ltc/covidvax/tracking-worksheet-org-508.pdf](https://www.cdc.gov/nhsn/pdfs/ltc/covidvax/tracking-worksheet-org-508.pdf)
Monthly Reporting Plan: Weekly COVID-19 Vaccination Modules

- The Monthly Reporting Plan no longer required for vaccination modules from the NHSN application beginning with reporting for June 2022 and forward
  - MRPs remain required for reporting Weekly COVID-19 Vaccination Module data in the HPS and LTC components through May 2022.
- Users will see the new agreement before saving data using the vaccination forms, .CSV upload or the event level forms.

By saving these data in NHSN, facilities are agreeing to the following:
1) The data reported are consistent with definitions outlined in NHSN surveillance protocols (including tables of instructions and frequently asked questions).
2) The data will be sent to the Centers for Medicare and Medicaid Services (CMS) to fulfill CMS quality reporting requirements (when applicable).
Question #3

- How do I categorize a resident who received a complete primary COVID-19 vaccine series and one booster dose?
  - This person would be included in:
    - Question 2.2, “Any completed primary COVID-19 vaccine series”
    - Question 4, “Cumulative number of residents with complete primary series vaccine in Question 2 who have received any booster(s) or additional dose(s) of COVID-19 vaccine since August 2021”
    - Question 4.1, “Cumulative number of residents in Question 4 who have received only one booster dose of COVID-19 vaccine since August 2021”
    - Question 5, “Cumulative number of residents in question 2 who are up to date with COVID-19 vaccines”
Question #4

- How do I categorize a resident who received a completed primary COVID-19 vaccine series and two booster doses?
  - This person would be included in:
    - Question 2.2, “Any completed primary COVID-19 vaccine series”
    - Question 4, “Cumulative number of residents with complete primary series vaccine in Question 2 who have received any booster(s) or additional dose(s) of COVID-19 vaccine since August 2021”
    - Question 4.2, “Cumulative number of residents in Question 4 who received two or more booster doses of COVID-19 vaccine, and the most recent dose was received since March 29, 2022.”
    - Question 5, “Cumulative number of residents in question 2 who are up to date with COVID-19 vaccines”.
Summary of Updates and Changes

- Removed questions on vaccine manufacturer and vaccine supply
- Monthly reporting plan completion to submit COVID-19 vaccination module data will no longer be required for months beginning June 2022
- Added reporting fields to Question 4 of the resident form only on the number of booster doses received by residents
- New question on up-to-date vaccination status
Weekly COVID-19 Vaccination Cumulative Summary

What are the main changes?

Simplifications
1. COVID-19 vaccination data will no longer be reported by vaccine manufacturer for questions on primary vaccine series and additional/booster doses.
2. Questions on vaccine supply will be removed.
3. Completing monthly reporting plans for COVID-19 vaccination modules in the Long-Term Care Facility Component will no longer be required. Instead, upon saving or uploading data, users will agree to the following:
   a. The data reported are consistent with definitions outlined in NHSN surveillance protocols (including tables of instructions and frequently asked questions).
   b. The data will be sent to the Centers for Medicare and Medicaid Services (CMS) to fulfill CMS quality reporting requirements (when applicable).

Additions
1. Adding a note at the top of form specifying that data can be submitted by completing the questions on the data collection form or by using the new event-level COVID-19 vaccination forms.
2. Adding a question for facilities to report the cumulative number of individuals who are up to date with COVID-19 vaccination.
3. Adding two fields to question #4 to report the cumulative number of individuals who received only one booster dose and two or more booster doses of COVID-19 vaccine (Note: For residents only)

How should I prepare?
Facilities should develop or update data tracking mechanisms to collect weekly COVID-19 vaccination data on residents and healthcare personnel for the additional questions.

Tip: Using the new event-level COVID-19 vaccination forms in NHSN’s Long-Term Care Facility Component can simplify the tracking and reporting of data on multiple booster doses and up to date status.
Updates Coming Soon

The Resident Impact and Facility Capacity Pathway (RIFC) and the Staff and Personnel Impact Pathway will have several data elements **removed**:

a. COVID-19 test type  
b. Vaccine manufacturer (RIFC only)  
c. COVID-19 re-infections  
d. Other respiratory illness  
e. Testing performed and time for receiving results

**Possible Additions**
1. Expand vaccination status options for boosters.  
2. Include **simplified PPE shortage question**.

**How should I prepare for the upcoming changes?**
- Review ALL E-mail communication from NHSN  
- Attend COVID-19 Module trainings  
- Review the TOIs to assist with reporting elements  
- Update your CSV files as applicable  
- Templates will be updated on the [COVID-19 webpage](#) in May
NHSN Training Coming Soon
