Featured Speakers:

Linda McCluskey
PFAC Executive Co-Chair and
Advisor

Kristen Kellar
TGH Patient Advisory
Coordinator

Event Description:

Readmissions on the rise? Learn strategies and project ideas from a patient advisory coordinator and a patient and family advisor on how to engage patient and family advisors in readmission prevention and reduction initiatives.

At the conclusion of the sessions, participants will be able to:

1. Define and understand the importance of patient voice inclusion - specifically involving an organized Patient and Family Advisory Council (PFAC) in decisions involving patient-facing materials and processes
2. Learn specific ways PFAC involvement can contribute to readmission reduction in hospital settings

Use Tomorrow:

Talk with your facility's PAC or family council and identify one readmissions related initiative to begin involving patient and family advisors.

Please invite your patient advisors, colleagues and friends to attend this event so you can learn together and support each other.

Hosted by Alliant Health Solutions, a Quality Innovation Network – Quality Improvement Organization (QIN – QIO) and Hospital Quality Improvement Contractor (HQIC) under contract with the Centers for Medicare & Medicaid Services (CMS), an agency of the U.S. Department of Health and Human Services (HHS).
