Opioids In Nursing Home to Home Transitions

Wednesday, November 9, 2022
2 – 2:30 p.m. ET/1 – 1:30 p.m. CT

SUMMARY:

Patients transitioning from the nursing home back into the home is a critical shift in patient care. Join us for a presentation discussing best practices for this transition that focuses on the management of opioids. Nursing homes will learn the best steps for setting up these patients for success at home.

IN THIS SERIES, ATTENDEES WILL LEARN TO:

1. Describe the difference between Problematic Opioid Use vs. Opioid Use Disorder (OUD).
2. Recall the proper counseling points for opioid usage.
3. List the importance of co-prescribing naloxone and the proper counseling approach.
4. Describe the best practices for transitioning a patient from the rehabilitation setting to the home setting.

Hosted by Alliant Health Solutions, a Quality Innovation Network – Quality Improvement Organization (QIN – QIO)) under contract with the Centers for Medicare & Medicaid Services (CMS), an agency of the U.S. Department of Health and Human Services (HHS).
