C. DIFFICILE INFECTION REDUCTION IN LONG TERM CARE:

Session Five: Early Detection,
Isolation and Recommendations
for Testing

Wednesday, January 11, 2023
1:00 - 1:30 p.m. ET / 12 - 12:30 p.m. CT

SUMMARY:

Did you know more than 100,000 *C. difficile* infections developed among residents of U.S. nursing homes? Join us for the fifth in a series of six sessions to learn how to implement a plan to reduce the risk of *C. difficile* infections among residents at your nursing home. Throughout the series, we will provide Quality Assurance and Performance Improvement tools and infection prevention best practices.

THE LEARNER WILL BE ABLE TO:

1. Implement decision-making strategies to enhance early recognition of patients with *C. difficile* infections.
2. Understand *C. difficile* testing and ordering best practices.
3. Understand isolation precautions for patients with *C. difficile* infections and discontinuation of isolation.
