C. DIFFICILE INFECTION REDUCTION IN LONG TERM CARE:
Session Four: Surveillance, Data Tracking, and Reporting

Wednesday, December 14, 2022
1:00 - 1:30 p.m. ET / 12 - 12:30 p.m. CT

SUMMARY:
Did you know more than 100,000 *C. difficile* infections developed among residents of U.S. nursing homes? Join us for the fourth in a series of six sessions to learn how to implement a plan to reduce the risk of *C. difficile* infections among residents at your nursing home. Throughout the series, we will provide Quality Assurance and Performance Improvement tools and infection prevention best practices.

THE LEARNER WILL BE ABLE TO:
1. Understand *C. difficile* surveillance definitions and the importance of definition standardization.
2. Describe essential data collection strategies used to effectively monitor process and outcome measures for *C. difficile* reduction.
3. Utilize a *C. difficile* tracking tool.
4. Understand best practices for CDI reporting
