

ALLIANT
ESRD NETWORK 14

WE ARE THE MISSING PIECE

What is the Network?

CMS ▶ ESRD Networks ▶ Dialysis Facilities

- End Stage Renal Disease (ESRD) Networks are contracted by the Centers for Medicare & Medicaid Services (CMS) to oversee the quality of care provided by dialysis and transplant facilities to ESRD and transplant patients.
- The ESRD Conditions for Coverage [*§42 CFR Part 494.180(i)*] require dialysis facilities to cooperate with the ESRD Network designated for its geographic area (Network 14), in fulfilling the terms of the Network's current statement of work. Each facility must participate in ESRD Network activities and pursue Network goals.
- The Network is a liaison between the federal government (CMS) and ESRD providers.

What is your Network?

- Alliant Health Solutions Network 14, formerly End Stage Renal Disease Network of Texas, serves as the ESRD federal contractor for the Network 14 region.
- The Network 14 region encompasses the state of Texas.
- Alliant Health Solutions ESRD Network 14 oversees more than 760 hemodialysis facilities and 25 renal transplant centers (as of January 2023).

We are here to help.

Contact us to advance patient engagement, discuss grievances or potential involuntary discharges (IVDs), get assistance with data entry in EQRS or NHSN, improve quality measures and much more. The Network advocates for both patients and staff. If in doubt, reach out!
