

JOIN OUR UPCOMING WEBINAR EVENT

ALLIANT HQIC QUALITY LEADER SUMMIT

Tuesday, June 6, 2023
1 - 2 p.m. ET via ZOOM

OVERVIEW:

Join this live event to learn how the Alliant Hospital Quality Improvement Contractor (HQIC) program has improved patient safety and outcomes for our 147 enrolled hospitals to date. This event will focus on improving sepsis bundle compliance and decreasing sepsis mortality as we learn from Colquitt Regional, a 99-bed community hospital in Moultrie, Georgia. In addition, our subject matter expert will discuss health equity strategies to meet The Joint Commission and CMS mandatory requirements. Lastly, educational events and updates to valuable resources, such as coaching packages, the website and the portal, will be discussed.

LEARNING OBJECTIVES:

1. Discuss patient safety areas meeting target goals and opportunities for improvement
2. Describe how a hospital improved the sepsis bundle compliance rate and decreased the sepsis mortality rate by enhancing early recognition and diagnosis of severe sepsis and septic shock
3. Provide health equity strategies to meet The Joint Commission accreditation and CMS regulatory requirements for screening for social determinants of health (SDOH).
4. Highlight educational events and updated valuable resources such as coaching packages, the HQIC website and the data portal
