Hand Hygiene Can Keep Your Halls Decked with Joy

During the holiday season, practicing **good hygiene** by washing your hands with soap and water can prevent the spread of germs. Here are some **easy steps** to follow:

HAND HYGIENE

HOLIDAYS

Wet your hands with clean, running water (warm or cold), and apply soap.

Rinse your hands well under clean, running water.

Lather your hands by rubbing them together with the soap. Lather the backs of your hands, between your fingers, and under your nails.

Dry your hands using a clean towel or air dry them.

Scrub your hands for at least 20 seconds. Need a timer? Hum the "Happy Birthday" song from beginning to end twice.

Or use hand sanitizer that contains at least 60% alcohol:

Apply the gel product to the palm of one hand (read the label to learn the correct amount).

Rub your hands together.

Rub the gel over all the surfaces of your hands and fingers until your hands are dry. This should take around **20 seconds**.

Don't let poor hand hygiene keep you from spreading joy.
