## **QAPI Leadership Rounding Tool**

**Directions:** Leadership rounding is a process where leaders (e.g., administrator, department heads, and nurse managers) are out in the building with staff and residents, talking with them directly about care and services provided in the organization including QAPI initiatives. Rounding with staff and residents is an effective method for leaders to hear firsthand what is going well and what issues need to be addressed within the organization. It serves as an important signal of leadership's commitment to performance improvement, and promotes a culture of QAPI in the organization. Use this to guide your rounds to monitor the progress of QAPI initiatives.

## **Questions to Consider Before Rounding**

- 1. Which leader(s) will conduct rounds?
- 2. How frequently will rounds take place?
- 3. What questions do you want to ask? What do you want to learn? (See sample questions below.)
- 4. What barriers/issues have already been identified that employees should be asked about in order to gather input on solutions?

## Rounding

- 1. Leaders conduct rounds as planned, maintaining a positive tone, building relationships with staff by taking the time to listen and respond to employees' and residents' needs.
- 2. Ask questions and document key points. See optional rounding form below.
- 3. When employees raise issues or ask for help, assure them you will follow up.
- 4. Follow up on previous issues or requests —share with staff how the issues were addressed or resolved.

## **To Do After Rounding**

- 1. Identify frequently noted issues/themes.
- 2. Prioritize issues (e.g., by level of urgency, threat, ability to resolve).
- 3. Conduct follow-up to show responsiveness to the issues raised (note: this may involve following up with employees individually, developing an organizational report that outlines the input collected and proposed solutions—potentially utilizing the priority levels developed in step #2—or including the findings as a component to be communicated during the next rounding session).
- 4. Consider ways to acknowledge outstanding employee/unit efforts (e.g., thank you notes or other rewards/recognition).
- 5. Identify training or coaching opportunities for employees/units. Plan next rounding session.
