

# Shop Talk For Long-Term Care Facilities: Updates to CMS NHSN Reporting Requirements, COVID-19 and Respiratory Viruses Updates, NHSN Updates and Live Q&A

## Welcome!

Chat with Technical Support if you need assistance

### Presented by:

Paula St. Hill, DrPH, MPH, CIC, A-IPC  
Infection Prevention Technical Advisor

October 17, 2024

# Paula St. Hill, DrPH, MPH, CIC, A-IPC

## INFECTION PREVENTION TECHNICAL ADVISOR

Dr. St. Hill is a health care professional with a diverse background in public health, infection prevention, epidemiology, and microbiology. She has over 10 years of health care experience and enjoys public health and identifying ways to improve health outcomes, specifically those related to healthcare-associated infections.

**Dr. St. Hill enjoys traveling, outdoor activities, and spending time with family and friends.**

**Contact: [Paula.StHill@allianthealth.org](mailto:Paula.StHill@allianthealth.org)**

# Donald Chitanda, MPH, CIC, LTC-CIP

## INFECTION PREVENTION TECHNICAL ADVISOR

Donald is a health professional with experience in public health epidemiology and infection prevention. He previously worked as an infection preventionist at the hospital- and system-level, where he was part of a task force to ensure the safety of caregivers and patients during the ongoing COVID-19 pandemic. In addition, he was a part of and led several projects to reduce hospital-acquired infections utilizing Lean Six Sigma methodologies. He is also trained in ensuring ongoing facility survey readiness for regulatory agencies such as the CMS and The Joint Commission.

**Donald enjoys spending time with family and doing outdoor activities.**

**Contact: [Donald.Chitanda@AlliantHealth.org](mailto:Donald.Chitanda@AlliantHealth.org)**

# Erica Umeakunne, MSN, MPH, APRN, CIC, CPPS

## INFECTION PREVENTION SPECIALIST

Erica Umeakunne is an adult gerontology nurse practitioner and infection preventionist with experience in primary care, critical care, health care administration and public health.

She was previously the interim hospital epidemiology director of a large health care system in Atlanta and a nurse consultant in the Centers for Disease Control and Prevention's (CDC) Division of Healthcare Quality Promotion. At the CDC, she was an infection prevention and control (IPC) subject matter expert for domestic and international IPC initiatives and emergency responses, including Ebola outbreaks and the COVID-19 pandemic.

**Erica enjoys reading, traveling, family time and outdoor activities.**

**Contact: [Erica.Umeakunne@allianthealth.org](mailto:Erica.Umeakunne@allianthealth.org)**

# Amy Ward, MS, BSN, RN, CIC, FAPIC

## PATIENT SAFETY MANAGER

Amy is a registered nurse with a diverse background in acute care nursing, microbiology, epidemiology and infection control. She is passionate about leading and mentoring new and future Infection preventionists in their career paths and assisting them in reducing healthcare-associated infections across the continuum of care.

**Amy enjoys spending time with her family. She loves camping, bicycling and running.**

**Contact: [Amy.Ward@AlliantHealth.org](mailto:Amy.Ward@AlliantHealth.org)**

# Agenda

- CMS NHSN Reporting Requirements Update
- COVID-19 and Respiratory Viruses Updates
- NHSN Q4 Review
- NHSN Respiratory Pathogens Reporting
- Alliant Health and NHSN updates
- Live questions and answers

# CMS NHSN Reporting Requirements Update

# Long-Term Care Facility (LTCF) Acute Respiratory Illness Data Reporting

- CMS **proposes** replacing the current COVID-19 reporting standards for LTCFs that sunset on December 31, 2024.
- Beginning on January 1, 2025, the new standard could require facilities to electronically report information about COVID-19, influenza, and respiratory syncytial virus (RSV).

# NHSN COVID-19 LTCF Reporting Requirements

NHSN Reporting Requirement	NHSN Reporting Deadline
<p><b>COVID-19 Vaccine: HCP</b> Healthcare Personnel COVID-19 Cumulative Vaccination Summary for Long-Term Care Facilities</p> <p>Recommendation to utilize the Person-Level COVID-19 Vaccination Form and select the “view reporting summary and submit” to these data.</p>	<p>Reporting week is Monday through Sunday. <b>Data must be submitted to NHSN once every reporting week for the week corresponding to the reporting week.</b> Report consistently each week.</p>
<p><b>RPV: Residents</b> Weekly Respiratory Pathogens and Vaccination Summary for Residents of Long-Term Care Facilities</p> <p><b>Required elements include questions pertaining to COVID-19 vaccination, cases, and hospitalizations:</b> 1., 2.a., 3.a., 3.a.i., 4.a., 4.a.i.</p>	<p><b>Report once every week before Sunday at 11:59 p.m. (UTC).</b></p>
<p><b>Influenza Vaccination Summary for Healthcare Personnel</b> Facilities must report annual HCP influenza vaccination summary data through the NHSN Healthcare Personnel Safety Component for the reporting period of October 1, 2024, through March 31, 2025.</p>	<p><b>Report once for influenza season (October 1, 2024 – March 31, 2025) by May 15, 2025, at 11:59 p.m. (UTC).</b></p>

# CMS Reporting Requirements

Reminder: Facilities can contact CMS with questions about reporting requirements.

# COVID-19 and Respiratory Viruses Updates

# COVID-19 Update for the United States

## COVID-19 Update for the United States

### Early Indicators

#### Test Positivity >

% Test Positivity

**11.6%**

Week ending September 21, 2024  
Previous week 13.4%

#### Emergency Department Visits >

% Diagnosed as COVID-19

**1.1%**

Week ending September 28, 2024  
Previous week 1.4%

These early indicators represent a portion of national COVID-19 tests and emergency department visits. [Wastewater](#) information also provides early indicators of spread.

### Severity Indicators

#### Hospitalizations >

Rate per 100,000 population

**3.7**

Week ending September 14, 2024  
Previous week 4.0

#### Deaths >

% of All Deaths in U.S. Due to COVID-19

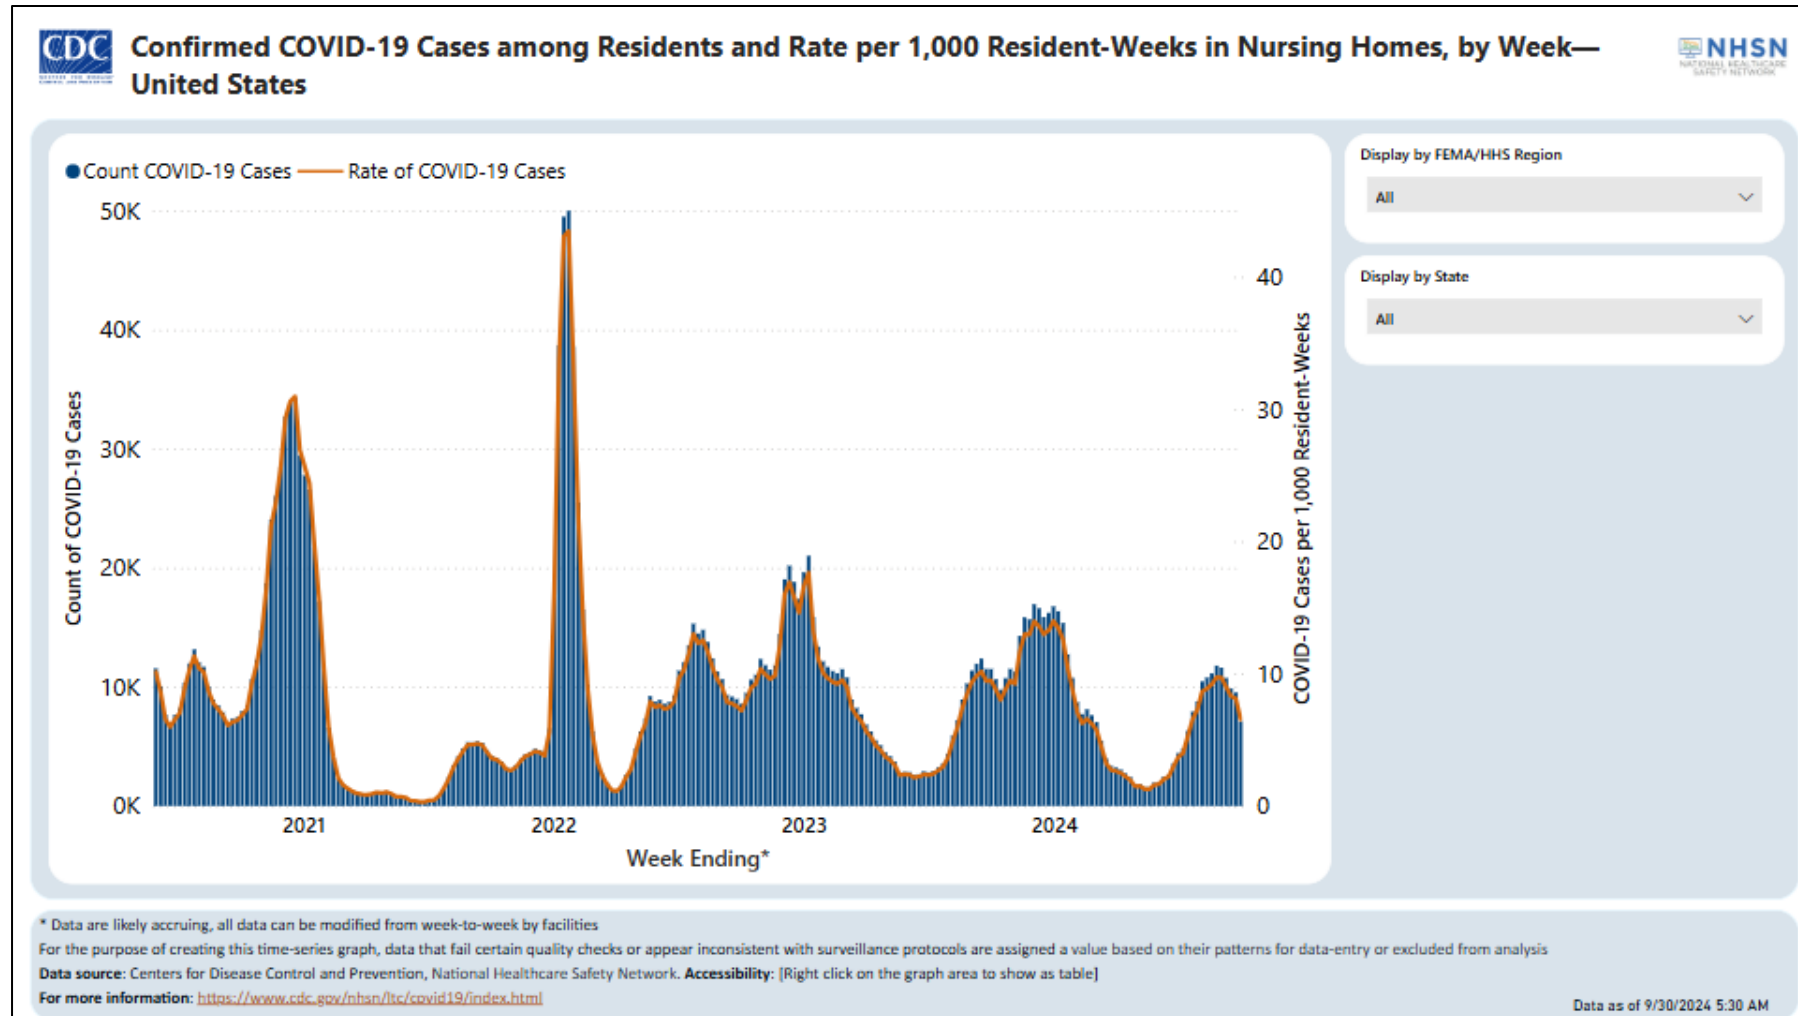

**1.9%**

Week ending September 28, 2024  
Previous week 2%

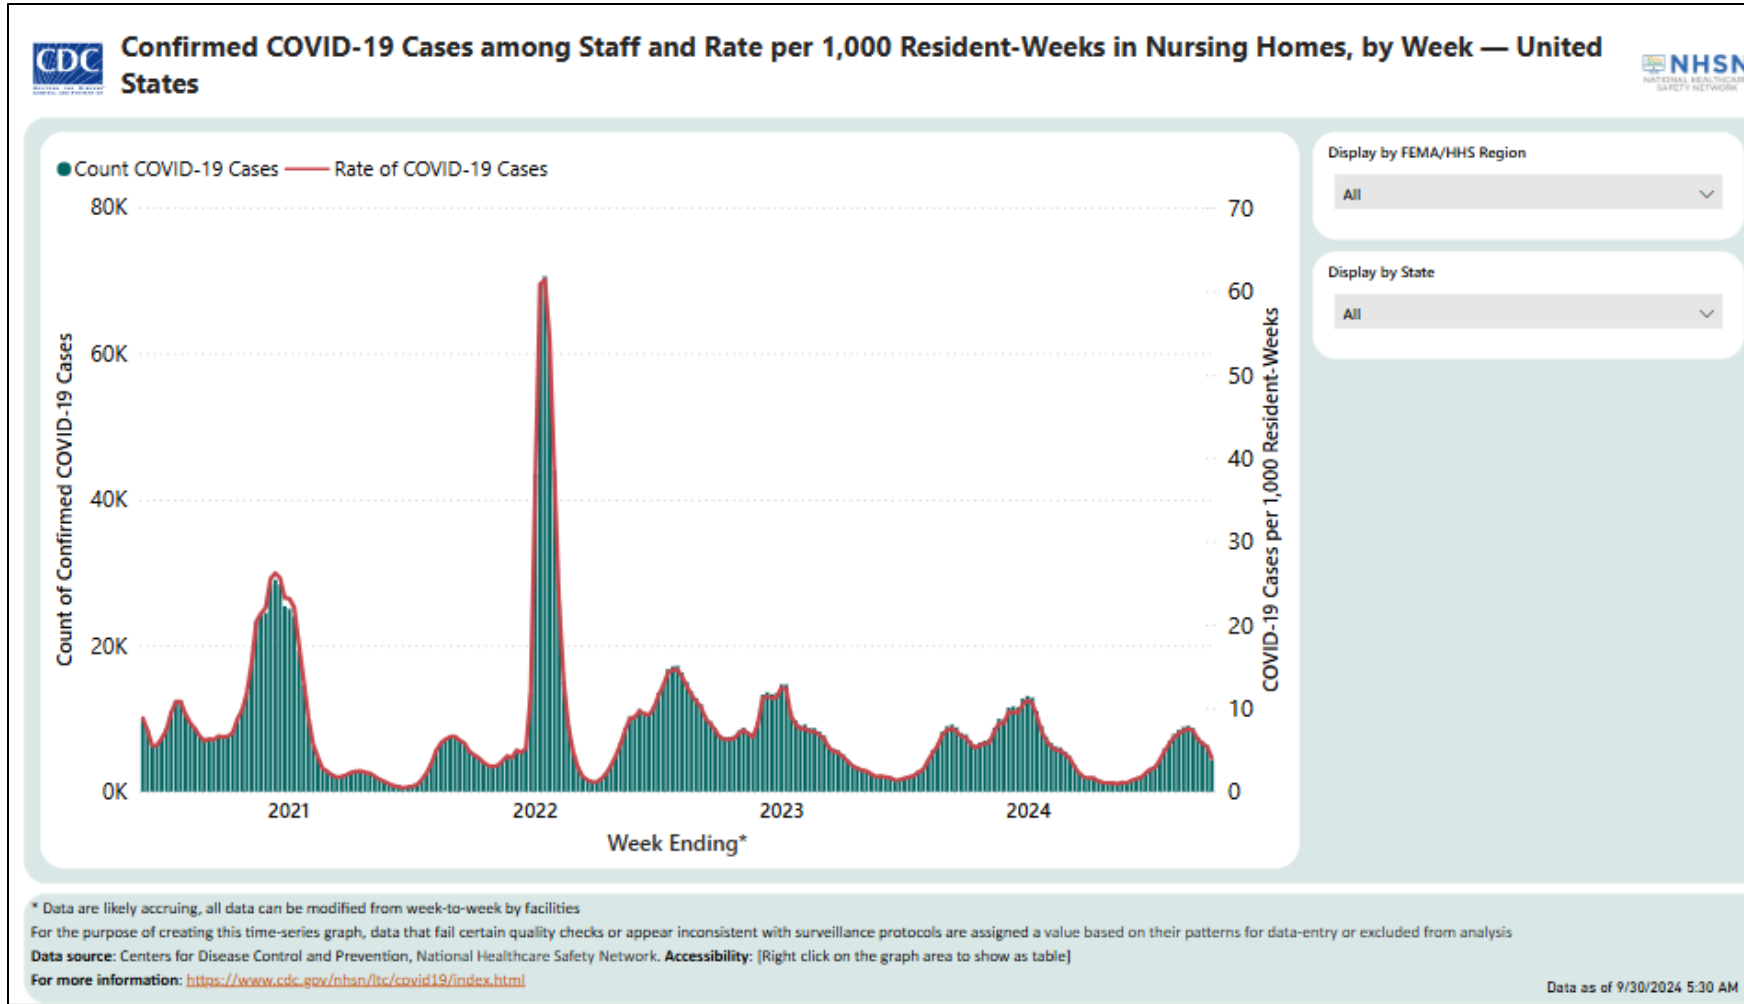

CDC | Test Positivity data through: September 21, 2024; Emergency Department Visit data through: September 28, 2024; Hospitalization data through: September 14, 2024; Death data through: September 28, 2024.

# Confirmed COVID-19 Cases Among Residents in Nursing Homes

# Confirmed COVID-19 Cases Among Staff in Nursing Homes

# CDC Respiratory Illnesses Data Channel

OCTOBER 4, 2024 [ESPAÑOL](#)

## Respiratory Illnesses Data Channel

This site is updated on Fridays. *New data will be added throughout the fall.*

### WHAT TO KNOW

- As of October 4, 2024, the amount of acute respiratory illness causing people to seek healthcare is low nationally.
- COVID-19 activity is declining in most areas. Seasonal influenza is low nationally.
- Signs of increased RSV activity have been detected in the southeastern U.S. including Florida, particularly in young children.

Nationally,  
**Respiratory  
Illness**  
causing people to  
seek healthcare is

# CDC Respiratory Illnesses Data Channel

## Wastewater viral activity level in **the United States**

**What it is:** A measure of how much virus is present in sewage.

**Why it matters:** People who are infected often shed virus into wastewater, even if they don't have symptoms. As a result, high wastewater levels may indicate an increased level of infections even when other measures remain low.

[See more data »](#)

[Learn about this measurement »](#)

† Flu levels are for Influenza A only.

## Emergency department visits in **the United States**

**What it is:** A measure of how many people are seeking medical care in emergency departments.

**Why it matters:** When levels are high, it may indicate that infections are making people sick enough to require treatment.

[See more data »](#)

[Learn about this measurement »](#)

# CDC Respiratory Illnesses Data Channel

## Wastewater viral activity level in **Georgia\***

**What it is:** A measure of how much virus is present in sewage.

**Why it matters:** People who are infected often shed virus into wastewater, even if they don't have symptoms. As a result, high wastewater levels may indicate an increased level of infections even when other measures remain low.

[See more data »](#)

[Learn about this measurement »](#)

\* Wastewater data is displayed at the state or territory level, local data is unavailable at this time.

† Flu levels are for Influenza A only.

## Emergency department visits in **Chatham\***

**What it is:** A measure of how many people are seeking medical care in emergency departments.

**Why it matters:** When levels are high, it may indicate that infections are making people sick enough to require treatment.

# CDC Respiratory Virus Recommendations

- Stay [up-to-date with vaccinations](#) to protect against serious illness, hospitalization, and death. This includes flu, COVID-19, and RSV if eligible.
- Practicing good hygiene by covering coughs and sneezes, washing or sanitizing hands often, and cleaning frequently touched surfaces.
- Taking steps to clean the air, such as bringing in more fresh outside air, purifying indoor air, or gathering outdoors.

**Respiratory Virus Guidance Snapshot**

**Core prevention strategies**

- Immunizations**: Illustration of a woman with an arm band.
- Hygiene**: Illustration of a woman washing her hands with a child.
- Steps for Cleaner Air**: Illustration of a window with fresh air and a purifier.
- Treatment**: Illustration of an elderly man on a phone with a pill bottle.
- Stay Home and Prevent Spread\***: Illustration of a woman in bed.

**Additional prevention strategies**

- Masks**: Illustration of a person wearing a face mask.
- Distancing**: Illustration of two people with a dashed line between them.
- Tests**: Illustration of a person holding a test result.

**Layering prevention strategies can be especially helpful when:**

- ✓ Respiratory viruses are causing a lot of illness in your community
- ✓ You or those around you have risk factors for severe illness
- ✓ You or those around you were recently exposed, are sick, or are recovering

**\*Stay home and away from others until, for 24 hours BOTH:**

- Your symptoms are getting better
- You are fever-free (without meds)

**Then take added precaution for the next 5 days**

# Stay Up-to-Date With COVID-19 Vaccines

- CDC recommends that everyone ages six months and older receive a 2024–2025 COVID-19 vaccine.
- It is especially important to get your 2024-2025 COVID-19 vaccine if you are 65 and older, are at high risk for severe COVID-19, or have never received a COVID-19 vaccine.

Vaccine	Recommended for:
2024–2025 Moderna COVID-19 Vaccine	Everyone ages 6 months and older
2024–2025 Pfizer-BioNTech COVID-19 Vaccine	Everyone ages 6 months and older
2024–2025 Novavax COVID-19 Vaccine	Everyone ages 12 years and older

# Updated 2024-2025 Flu Vaccine Recommendation

- CDC recommends that everyone 6 months of age and older receive an updated 2024-2025 flu vaccine to reduce the risk of influenza.
- Providers are encouraged to begin their influenza vaccination planning efforts now and to vaccinate patients as indicated once 2024-2025 influenza vaccines become available.
- September and October remain the best times for most people to get vaccinated.

**NHSN Reporting  
Period Q4  
(September 30, 2024 –  
December 29, 2024)**

# NHSN Reporting Period Q4

**From September 30, 2024 – December 29, 2024**

For this reporting quarter, individuals are considered up-to-date with their COVID-19 vaccines for NHSN surveillance if they meet the following criteria:

- Received a 2024-2025 updated COVID-19 vaccine

**OR**

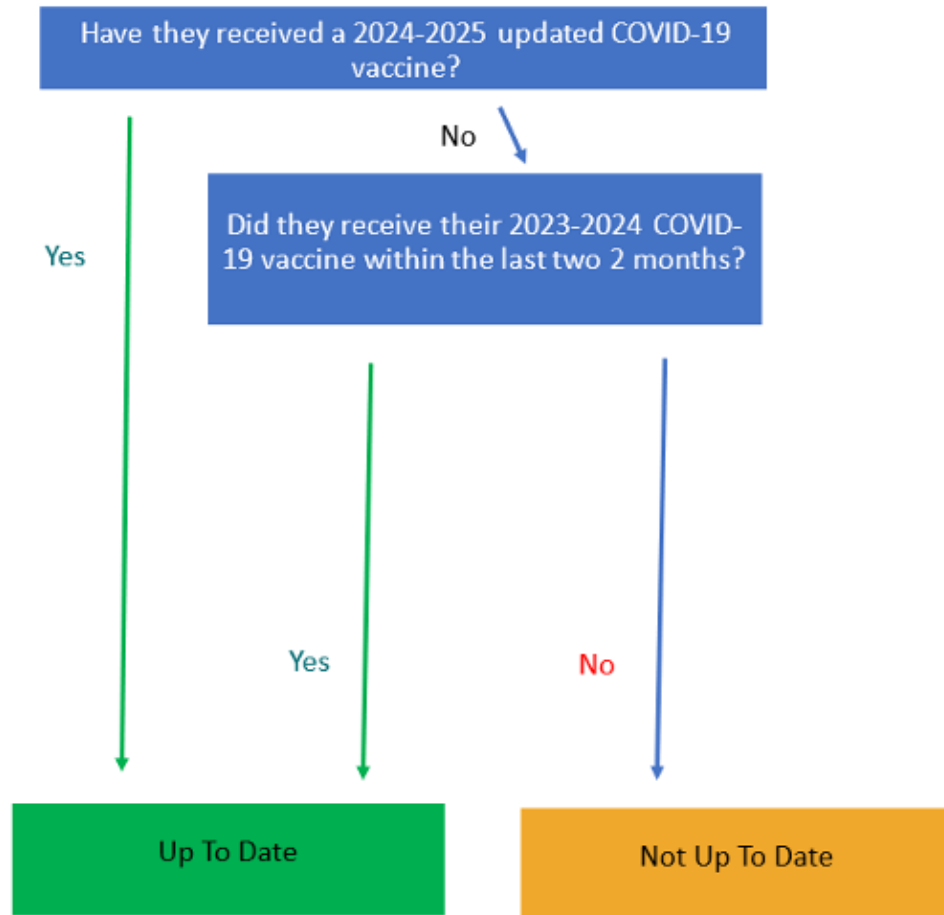

- Received a 2023-2024 COVID-19 vaccine within the past two months

# NHSN Reporting Period Q4

- Under the new recommendations, most individuals will NOT be up-to-date with COVID-19 vaccines until they receive the 2024-2025 updated COVID-19 vaccine.
- Individuals will become up-to-date as they receive the 2024-2025 updated COVID-19 vaccine the fall/winter.
- Facilities should report zero (0) up-to-date beginning 9/30/2024 until any individuals receive the 2024-2025 updated COVID-19 vaccine.

# Up-To-Date With COVID-19 Vaccines Decision Tree

Appendix 1a: Up to Date with COVID-19 vaccines during the surveillance period of Quarter 4 of 2024 (September 30, 2024 – through December 29, 2024) for question 2a

# Influenza and RSV Vaccination: Key Terms

Reporting Period: 2024-2025 Influenza/Respiratory Virus Season (July 2024–June 2025)

The following definitions apply when reporting data through the **NHSN Respiratory Pathogens Vaccination Modules and the LTCF COVID-19/Respiratory Pathogen Module (specifically, the Influenza/RSV optional tab)** for the reporting period of the 2024-2025 influenza season.

## Influenza:

Count individuals as vaccinated with this season's annual influenza vaccine if they received updated 2024-2025 influenza vaccine any time from when it first became available after July 2024.

*(For more information, please refer to: [CDC Recommends Updated 2024-2025 COVID-19 and Flu Vaccines for Fall/Winter Virus Season | CDC Online Newsroom | CDC](#))*

## RSV:

Count individuals as vaccinated with RSV vaccine if they received a dose of RSV vaccine any time from when it first became available in August 2023.

CDC recommends the following individuals receive the RSV vaccine:

- Everyone ages 75 and older
- People ages 60–74 who are at increased risk of severe RSV, meaning they have certain chronic medical conditions (such as lung or heart disease) or they live in nursing homes

*(For more information, please refer to: [CDC Updates RSV Vaccination Recommendation for Adults | CDC Online Newsroom | CDC](#))*

# Reviewing Q4 Up-to-Date Definitions Polling Questions

# Polling Question #1

James is a resident at Giant Peach Nursing Home. In July 2024, he received one dose of the 2023-2024 COVID-19 vaccine and then the 2024-2025 COVID-19 in October 2024.

Is James considered up-to-date?

- A. Yes
- B. No
- C. Not sure

# Answer

A. Yes

James IS considered up-to-date.

## Where to document?

James should be counted in **Question #2a (up-to-date)** because he received the updated 2024-2025 COVID-19 vaccine.

# Polling Question #2

Andy is a resident at Buzz Lightyear Health and Rehab. He has declined all COVID-19 vaccines and states he will “never get one.”

Is Andy considered up-to-date?

- A. Yes
- B. No
- C. Not sure

# Answer

**B. No**

**Andy is NOT considered up-to-date.**

Andy should NOT be counted in **Question #2a** because he declined to receive the updated 2024-2025 COVID-19 vaccine.

# Polling Question #3

Mary is a health care worker at Hocus Pocus Nursing Home. She reported a medical contraindication that prevented her from receiving the updated 2024-2025 COVID-19 vaccine.

Is Mary considered up-to-date?

- A. Yes
- B. No
- C. Not sure

# Answer

**B. No**

**Mary is NOT considered up-to-date.**

## **Where to document?**

Mary should be counted in **Question #3.1 (medical contraindication)** because she has a medical contraindication that prevents her from receiving the updated 2024-2025 COVID-19 vaccine.

# Polling Question #4

Elsa is a resident at Let It Go Nursing & Rehab Center. She refused all previous COVID-19 vaccines but decided to receive the updated 2024-2025 COVID-19 vaccine.

Is Elsa considered up-to-date?

- A. Yes
- B. No
- C. Not sure

# Answer

A. Yes

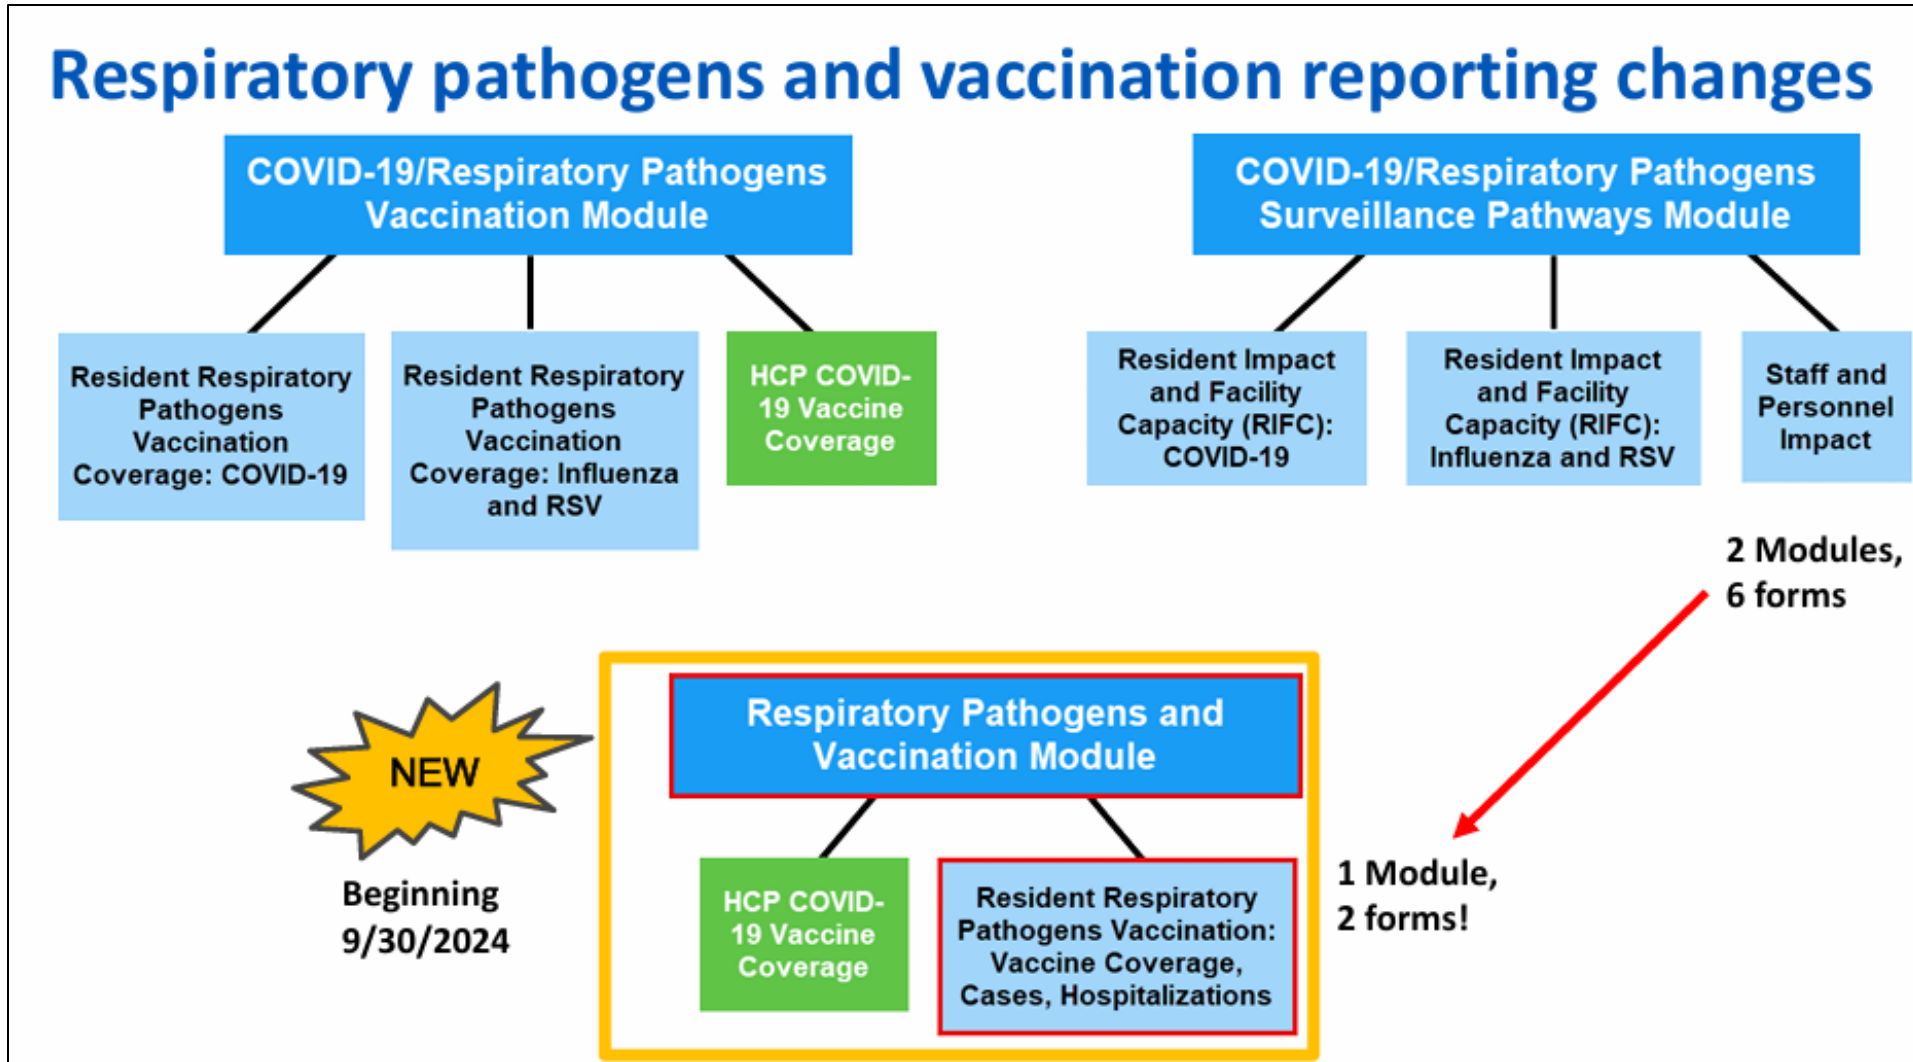

**Elsa IS considered up-to-date.**

## Where to document?

Elsa should be counted in **Question #2a (up-to-date)** because she received the updated 2024-2025 COVID-19 vaccine.

# NHSN Respiratory Pathogens Reporting

# NHSN RPV Module

# NHSN RPV Module

## Simplification of LTC reporting

- **Removed:**
  - Staff Pathway (including positive tests among staff)
  - Total resident deaths
  - Resident COVID-19 deaths
  - Total beds
  - Resident census
  - Resident medical contraindications, declinations, and other/unknown vaccination statuses for COVID-19, flu, and RSV vaccination
- **Reduced reporting from 2 modules with 6 forms to 1 module with 2 forms!**
  - Remaining weekly forms:
    - Residents: vaccination, cases, and hospitalizations
    - HCP: COVID-19 vaccination
- All data are reported once per reporting week (Monday – Sunday)

# NHSN RPV Module

## Simplification of the Resident Weekly RPV Summary Form

- Beginning September 30, 2024, facilities report resident case and hospitalization data on a combined summary form with vaccination questions for respiratory pathogens
- **COVID-19** cases, hospitalizations, and vaccination reporting is **mandatory**
- **Influenza and RSV** cases, hospitalizations, and vaccination reporting remain **optional**
- For LTC Resident reporting, questions regarding medical contraindications, declinations, and unknown vaccination status were removed

# NHSN RPV Module

## How to access the resident summary form

The RPV form can be accessed in two ways:

1. Respiratory Pathogens and Vaccination tab
  - RPV – Residents
2. RPV Summary tab

The screenshot shows the NHSN Long Term Care Facility interface. On the left is a vertical navigation menu with the following items: NHSN Home, Reporting Plan, Resident, Staff, Event, Summary Data, Respiratory Pathogens and Vaccination, RPV Summary, Surveys, Analysis, Users, Group, Tools, Cheat Sheets, and Logout. A red circle with the number '1' is placed over the 'Summary Data' item. A red box highlights the 'Respiratory Pathogens and Vaccination' item, which has a dropdown menu open. This dropdown menu contains the following items: RPV - Residents (highlighted with a blue bar), POC Test Result Reporting, Pathway Data Reporting (Archive), COVID-19 Event, Person-Level COVID-19 Vaccination Form - HCP, and Person-Level COVID-19 Vaccination Form - Residents. A yellow circle with the number '2' is placed over the 'Surveys' item in the main menu.

# NHSN RPV Module

## Weekly Respiratory Pathogens and Vaccination (RPV) Summary Form: Residents

COVID-19 Vaccine: HCP		RPV: Residents
Number of Residents	1. *Number of residents staying in this facility for at least 1 day during the week of data collection	<input type="text"/>
	Cumulative Vaccination Coverage	
	2. Resident Vaccination: Among residents in Question #1:	
Vaccination Coverage	2a. *Number of residents who are <u>up to date</u> with <u>COVID-19 vaccines</u>	<input type="text"/>
	2b. Number of residents who have received this season's <u>annual influenza vaccine (2024-2025)</u>	<input type="text"/>
	2c. Number of residents who have received <u>RSV vaccine</u>	<input type="text"/>
New Resident Cases (Positive Tests) and Hospitalizations During the Week of Data Collection		
New Cases	3. Resident Cases (Positive Tests):	
	3a. * <u>COVID-19</u> : Residents with a Positive Test	<input type="text"/>
	3ai. **Number of residents in Question #3a who received the <u>up to date</u> COVID-19 vaccine 14 days or more before the positive test	<input type="text"/>
	3b. <u>Influenza</u> : Residents with a Positive Test	<input type="text"/>
	3bi. **Number of residents in Question #3b who received this season's <u>annual influenza vaccine (2024-2025)</u> 14 days or more before the positive test	<input type="text"/>
	3c. <u>RSV</u> : Residents with a Positive Test	<input type="text"/>
3ci. **Number of residents in Question #3c who received <u>RSV vaccine</u> 14 days or more before the positive test	<input type="text"/>	
New Hospitalizations	4. Residents Hospitalized with a Positive Test:	
	4a. * <u>COVID-19</u> : Residents hospitalized this week, and had a positive test in the last 10 days	<input type="text"/>
	4ai. **Number of residents in Question #4a who received the <u>up to date</u> COVID-19 vaccine 14 days or more before the positive test	<input type="text"/>
	4b. <u>Influenza</u> : Residents hospitalized this week, and had a positive test in the last 10 days	<input type="text"/>
	4bi. **Number of residents in Question #4b who received this season's <u>annual influenza vaccine (2024-2025)</u> 14 days or more before the positive test	<input type="text"/>
	4c. <u>RSV</u> : Residents hospitalized this week, and had a positive test in the last 10 days	<input type="text"/>
4ci. **Number of residents in Question #4c who received <u>RSV vaccine</u> 14 days or more before the positive test	<input type="text"/>	

# NHSN RPV Module

## What about the Surveillance Pathways?

- Because resident case and hospitalization data will be reported in the Weekly RPV Form beginning 9/30/24:
  - The pathways will be disabled for dates **AFTER** 9/29/24
  - Users can add and edit data for dates **PRIOR** to 9/30/24
  - Beginning 1/6/25, the pathways will be view only for all dates

# Alliant Health Solutions Website

The screenshot displays the Alliant Health Solutions website interface. At the top left is the logo for Alliant Health Solutions and NQIIC (Network of Quality Improvement and Innovation Contractors). Navigation links for 'Programs', 'Events', and 'Resources' are positioned to the right. A search bar with the placeholder text 'What can we help you find?' and a 'Search' button is located below the navigation. The main content area features a 'POPULAR TOPICS' section with the heading 'Explore trending topics'. A large blue arrow points down to the 'Shop Talks' button in a grid of topic buttons. The grid includes buttons for ESRD 8, ESRD 14, Virtual Education Events, BOOST, Shop Talks, HQIC, Patients and Families, Opioid Utilization and Misuse, NCRN, Infection Control, Nursing Homes, GDPH, Immunizations, and Chronic Disease Self-Management.

## Shop Talks & Quickinars

A shop talk is a webinar hosted by Alliant to share information and resources.

Updates and support for surveillance, tracking and infection prevention in nursing homes using National Healthcare Safety Network (NHSN). This WebEx is focused on submitting COVID-19 data but may include other components such as C. Diff, UTIs and hand hygiene.

# Shop Talk and Shop Talk Shorts YouTube Channel

**Activating the HPS Component (cont.)**

- Facility Administrator adds HPS Component Primary Contact as a user within the NHSN facility
  - Click "Users" on the navigation bar, then click "Add"
  - Complete "Add User" screen mandatory fields
    - User ID – created by the facility
    - First Name
    - Last Name
    - E-mail Address – Must be an active/correct address for the user
- Other users are added by the Facility Administrator or new HPS Component Primary Contact

# New Training Resources for NHSN Administrators

## New Training Resources for NHSN Administrators

Dear NHSN Administrators,

We are delighted to announce the launch of our latest training resources tailored specifically for you. Our comprehensive set of training videos has been meticulously designed to guide you through various administrator tasks, step-by-step.

To ensure easy access, we have provided the link to the NHSN Administrators Training webpage below:

[Link: NHSN Administrators Training] [NHSN Administrator Training | NHSN \(cdc.gov\)](https://www.cdc.gov/nhsn/administrator-training/)

These training videos cover essential topics such as:

- Adding a User to a Facility
- Enrolling a Facility in NHSN
- Deactivating and Activating a User in a Facility
- Reassigning the Facility Administrator in a Facility
- Adding a Component to a Facility

We encourage you to bookmark this page for future reference and share it with your team to facilitate seamless learning and skill development.

Stay tuned! In the near future, you will also be able to access these videos directly within the NHSN application on the left navigation bar on the Cheat Sheet tab.

Thank you for your dedication to ensuring the efficiency and success of our NHSN community.

Best regards,

NHSN Team

<https://www.cdc.gov/nhsn/training/administrator-training/nhsn-admin-training.html>

# NHSN Training

Our mission is to offer learning opportunities in a variety of formats that enhance the knowledge and skills of NHSN facility- and group-level participants and their partners in order that they may effectively use the data obtained from the surveillance system to improve patient and healthcare personnel safety.

## Objectives

- Convey NHSN data collection methods, submission requirements, and analysis options to participants so that they may acquire, submit, and disseminate high quality, actionable data.
- Prepare participants to use the NHSN reporting application accurately and efficiently.
- Enhance participants' and their partners' understanding of data quality and the value of adverse event monitoring.
- Encourage collaboration among participants and partners to improve the patient and healthcare personnel safety across the spectrum of care.

# Long-Term Care Facility Component Roadmap

## Phase II: Modules/Protocols

### Healthcare-associated Infections: Surveillance for Urinary Tract Infections

[Slideset](#)  [PDF – 1.1 MB]

 [Surveillance for UTI Module: Part II \[Video – 31 min\]](#)  
[Slideset](#)  [PDF – 3.4 MB]

 [UTI Protocol](#)  [PDF – 533 KB]

### Laboratory-identified Event (LabID Event): Surveillance for CDI and MDROs in LTCF

 [Surveillance for CDI in LTCFs: LabID Event Modules \[Video – 30 min\]](#)  
[Slideset](#)  [PDF – 1.1 MB]

 [Surveillance for MDROs in LTCFs: LabID Event Modules \[Video – 24 min\]](#)  
[Slideset](#)  [PDF – 1.1 MB]

 [LabID Event Protocol](#)  [PDF – 308 KB]

### Prevention Process Measures: Hand Hygiene, Gloves and Gown Adherence

 [LTFC Prevention Process Measures Module \[Video – 27 min\]](#)  
[Slideset](#)  [PDF – 2 MB]

 [PPM Protocol](#)  [PDF – 308 KB]

## Phase III: Analysis

### Introduction to Analysis

 [Data for Action: How can NHSN data be used to guide prevention efforts in LTFC? – March 2017 \[Video – 43 min\]](#)  
[Slideset](#)  [PDF – 4 MB]

## NHSN Educational Roadmaps

### LONG-TERM CARE FACILITY COMPONENT TRAINING

Welcome to the Long-term Care Facility Component (LTC) Educational Roadmap. This roadmap has three (3) sections, LTC Foundation, Modules/Protocols and Analysis. For the best learning experience, start with the Long-term Care Foundation section and work your way down the list and complete each item. After you complete this section, select the LTC Modules/Protocols Training that best meets your practice needs followed by Analysis.

## Phase I: Long-Term Care Foundation

### Part I: NHSN Getting to Know NHSN and the Long-term Care Facility Component

 [Infection Surveillance and Prevention in Long-term Care: A National Perspective \[Video – 29 min\]](#)  
[Slideset](#)  [PDF – 3 MB]

 [Overview of Using NHSN to Track and Report Infections in LTFC \[Video – 51 min\]](#)

# Nursing Home and Partnership for Community Health: CMS 12th SOW GOALS

## OPIOID UTILIZATION AND MISUSE

- Promote opioid best practices
- Reduce opioid adverse drug events in all settings

## PATIENT SAFETY

- Reduce hospitalizations due to c. diff
- Reduce adverse drug events
- Reduce facility acquired infections

## CHRONIC DISEASE SELF-MANAGEMENT

- Increase instances of adequately diagnosed and controlled hypertension
- Increase use of cardiac rehabilitation programs
- Reduce instances of uncontrolled diabetes
- Identify patients at high-risk for kidney disease and improve outcomes

## CARE COORDINATION

- Convene community coalitions
- Reduce avoidable readmissions, admissions to hospitals and preventable emergency department visits
- Identify and promote optimal care for super utilizers

## COVID-19

- Support nursing homes by establishing a safe visitor policy and cohort plan
- Provide virtual events to support infection control and prevention
- Support nursing homes and community coalitions with emergency preparedness plans

## IMMUNIZATION

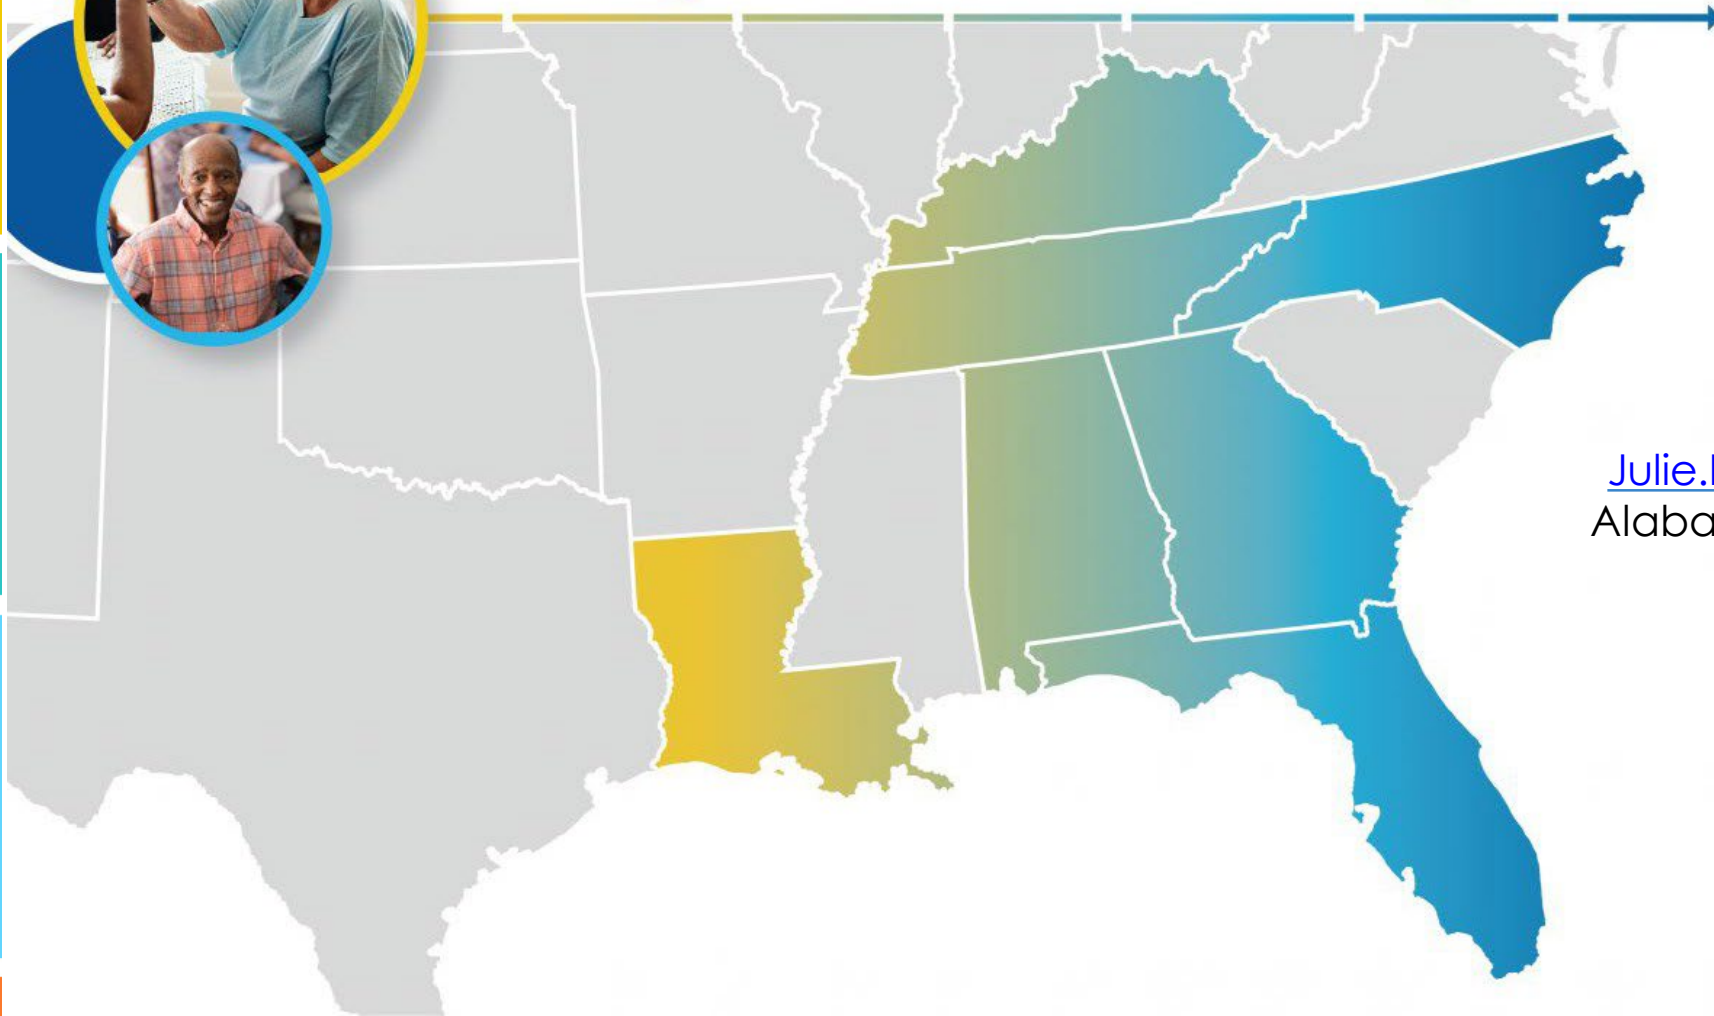

- Increase influenza, pneumococcal, and COVID-19 vaccination rates

## TRAINING

- Encourage completion of infection control and prevention trainings by front line clinical and management staff
