

# JOIN OUR UPCOMING WEBINAR EVENT

## ALLIANT HQIC RELIABILITY AND RESILIENCE LEARNING ACTION SERIES

### SUMMARY:

The HQIC Reliability and Resilience Learning Action Series aims to educate and engage hospital leaders on the concepts and practices of resilience and high reliability in health care. This event has been created in collaboration with other HQICs and all hospitals are invited to attend.

### LEARNING OBJECTIVES:

1. Discuss the foundations, theories, and applications of resilience and high-reliability organizing in health care.
2. Describe practical implementation strategies for activities that promote reliability and resilience, as well as tools and resources available to health care organizations.
3. Identify one idea to test at the local level to address reliability and resilience.
