ORAL ANTICOAGULATION 102: Identifying and Managing Risks

Wednesday, May 22, 2024
2 - 2:30 p.m. ET | 1 - 1:30 p.m. CT

SUMMARY:

As a follow-up to our Oral Anticoagulation 101 presentation in March, this 30-minute session will review the risks and benefits of anticoagulation, including common drug interactions, ways to mitigate bleeding risk and assess patient cases.

DURING THIS EVENT, LEARNERS WILL:

1. Recall common indications for anticoagulation.
2. Recognize common drug-drug interactions with oral anticoagulants and the associated risks.
3. Identify ways to mitigate bleeding risk with oral anticoagulants.
4. Assess patient scenarios to identify medication-related problems in individuals taking oral anticoagulants.
