Senior Consultant, Carrico & Ramirez PLLC
Professor, gratis faculty,
Division of Infectious Diseases
University of Louisville School of Medicine

PARTNERSHIP FOR COMMUNITY HEALTH AND NURSING HOME SERIES:

Community-Driven Strategies for Improving Vaccination Acceptance

Thursday, July 25, 2024
12:30 p.m. ET/1:30 p.m. CT

SUMMARY:

Get insights into the journeys of two communities that have successfully improved vaccination acceptance. Learn how they engaged community partners and consumers in the development and implementation of community-driven strategies. You'll hear about a statewide project that used interviews, focus groups, and surveys to identify and address barriers to immunizations. We'll also explore how another region, in partnership with the state nurses association, enhanced equitable access to COVID-19 vaccination through the implementation of mobile vaccination clinics. You'll also learn about the newest updates to Alliant Health Solution's seasonal immunization campaign.

DURING THIS EVENT, LEARNERS WILL:

1. Learn about the planning, implementation, impact and sustainability of community-centered vaccination programs.
2. Learn strategies for engaging community members and partners.
3. Review and apply Alliant Health Solutions immunization resources to support provider immunization campaigns.
