Join us for an insightful session that delves into the critical assessment of sepsis care capacity. Our expert speakers will guide participants through the process of identifying gaps, assessing current practices, and implementing strategies to enhance sepsis care.

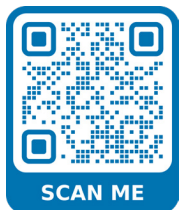

LEARNING OBJECTIVES:

1. Learn from a patient about what matters most to them when planning care for sepsis risk.
2. Examine programmatic and clinical strategies to prevent and manage sepsis, specifically the Sepsis Gap Analysis Tool and the Sepsis Early Recognition and Response Pathway for Nursing Facilities.
